

10 Tips For Dealing With Mold, Mildew & Water Damage

Categories : [DIY](#), [General](#)

It seems that no matter where you live, mold and mildew will be a problem somewhere in your house at some point in your life. Poor ventilation in bathrooms/kitchens and leaky roofs/walls are the usual culprits. The bottom line is if you have confined dampness that can't escape, mold and mildew will begin to grow and spread...

We have posted about how to remove mold/mildew naturally before, see: [Remove Mold & Mildew NATURALLY With Tea Tree Oil](#), but also be sure to check out the link below for more professional tips and advice on how to deal with mold/mildew and water damage.
