When I started Knowledge Weighs Nothing, one of the things I decided to do was to track down lots of alternative uses for common household products; I have found that there are some truly versatile products such as baking soda, vinegar, coconut oil, salt and now Alka-Seltzer! These items have so many alternative health, beauty, household and gardening uses, I recommend that all preppers and homesteader should have some stored.

Apart from easing upset stomachs and hangovers, some of Alka-Seltzer's other uses include: various cleaning uses, unblocking sinks, catching fish and laundry whitening. Check out the other uses and HOW to use it for each, below.
