

17 Aluminum Hacks That Make Life Easier

Categories : [DIY](#), [General](#)

If you have followed K.W.N for a while, you will have realized that we love everything to do with life hacks and hacking everyday items. There's just nothing better than finding out a product you have purchased to do a particular task, can actually do loads more things than intended. [Baking soda anyone?](#) Or how about some [awesome redneck hacks?](#) If you use the K.W.N search facility at the top of the page, just search 'hacks' and you'll see all the posts we have featured on the subject.

Below is a new post on hacking a product, this time it is aluminum foil. Check it out below and find a whole load of extra uses for that roll of aluminum you have in the drawer. The battery hack is in fact something we have [done ourselves in the past](#).
