

19+ Planters & Raised Beds Made From Free Pallets

Categories : [DIY](#), [General](#), [Growing your Own](#)

I have lost count of the number of DIY posts we have done about dismantling and reusing shipping pallets. Wooden pallets are the ultimate free resource for DIYers. They are plentiful and available for free if you know where to look. Use the K.W.N search facility and search PALLETS to see all the other posts we have done.

There are 19+ tutorials showing how to build pallet garden planters and raised beds. Personally I love the simplicity of the vertical pallet planters and the basic throw a pallet on the floor, raised beds, but some of the other more technical ones are beautiful too. Check them out below.
