25 DIY Weekend Preparedness Projects

Categories: Self-Sufficiency

Each of these projects are fairly low budget (some only require your time and a piece of paper) and shouldn't take longer than a couple of days to complete—many won't take more than a couple of hours. Tackle one (or more) this weekend and you're that much more prepared than you were yesterday! Always remember, each time you tackle a project on your own, you are gaining knowledge and skills and the more and more you do, the more self reliant you become.
