25 Ways To Reuse Plastic Bottles

Categories : DIY, General

I doubt there is even one person reading this, who doesn't have some plastic bottles knocking around the house... We are lucky in that our local authority provides great recycling services, so most of our plastic bottles are recycled this way. Unfortunately many folks, especially those living in the sticks, just don't have the same recycling services available.

If you are fed up just throwing your plastic bottles in the trash, check out the link below, there are 25 simple projects to recycle and reuse empty plastic bottles - there's everything from the nice little zip case above, through to a plastic bottle barometer and a plastic bottle hydroponic lettuce garden!
