30+ Things To Do With Eggshells

Categories: General, Homesteading, Self-Sufficiency

If you are like us, you usually throw your egg shells in the compost bin or the trash, but we might be missing a trick as it seems that there are many other useful DIY things we could be doing with our eggshells...

In particular there are a whole load of gardening uses for eggshells, from pest control to soil conditioning. There are also lots of DIY and health uses too - apparently you can separate the egg membrane out and use it as a wound dressing/bandage. Check out the link below for these and more uses.
