The can opener tip alone makes this list worth reading... How many times have you struggled to open sealed plastic items? I actually cut my finger quite badly once when trying to open a Dyson nozzle package, and I have almost cut myself several times when trying to open the packages with a knife. If you haven't tried opening these annoying packages with a can opener, you really must, it is so safe and easy to do. Give it a try.

Check out the other 34 tips and tricks to using everyday products and objects in a way they weren't intended. With two young kids, I will definitely be trying the hand sanitizer to remove ink stains. You can also find out how to open a bottle of wine with a shoe!

35 Life changing Ways To Use Everyday Objects
