8 Delicious Homemade Country Wine Recipes

We did a post a while back about [making country wines at home](#) and we got a lot of messages asking for more country wine recipes... Just to clear up for those that aren't sure - a country wine is a wine made from fruit, flowers, herbs, or a combination. The best thing about country wines is that many of the best ones are made with fruit/flowers that can be foraged for free.

I searched around and found the post below that has gathered 8 popular wine recipes found online. If you are looking for some new wine recipes, it is a great place to start.
