There was a time when we used to enjoy cooking and spending time in the kitchen. We could take our time and enjoy the process as much as the end product. Unfortunately that all changed when we had kids... These days the kitchen is the stressful and frenetic hub of the home. There is just not enough time in the day to get things done anymore. Thankfully there loads of tips, tricks and hacks online for making life quicker and easier in the kitchen.

If your kitchen is a similar sort of place to ours, it's time to check out these 80 tips and tricks that will enable you to be way more efficient in the kitchen, so you can get more done and have more time to spend elsewhere.
