If you like apple pie, and let's face it who doesn't, you're going to love this! You'll love it even more if you have your own apple trees and you are looking to use up some of this year's harvest.

If you haven't tried it before, apple pie jam is delicious on toast or some freshly baked bread; also as there is no pie crust you can eat more of it without feeling guilty. Check out the recipe below and give it a go. If you use some nice jars, a jar of apple pie jam would make a great gift.
