Build Your Own Every Day Carry (EDC) Survival Tin

Categories: DIY, General Prepping, Urban Survival, Wilderness Survival

So you have your bug-out-bag packed and ready to go; problem is you have to leave that bug-out-bag some place, usually at home. What happens if you are not at home when the SHTF? This tiny every day carry (EDC) kit fits into an Altoids tin, so it is small enough for everyone to carry wherever they go. Remember - it's what you have with you, when you need it that counts!

Check out what's included in this EDC kit and then plan and build your own. Even if the SHTF doesn't happen, I guarantee this kit will come in handy over and over again!
