Columbia River Knife: Triumph N.E.C.K Knife Review

Categories: Recommended Tools & Gear

This is the first of many video reviews I am going to feature from Tim, my friend from Everyday Tactical Vids.

This review is for a great little neck knife from CRKT (Columbia River Knife & Tool) called the Triumph N.E.C.K.

Neck knives are excellent back-ups to full sizes survival knives. As the name suggests, they are great for wearing around your neck when out in the wild. The benefit of this is - if you are separated from your pack and or your main knife, you still have the neck knife available. Alternatively they are also a great choice for packs and bug-out-bags due to their small size and weight.

You can purchase the Triumph N.E.C.K from Amazon for between $30-$35 (depending on seller).
