

Do You Have A Bug-Out-Boat?

Categories : [General Prepping](#), [Tools & Gear](#)

If the SHTF and there is no gas, the rivers will become the new roads. Even if you have a stockpile of gas, it may be useless if all the roads are blocked by all the vehicles that have run out...

With this in mind, a boat would be an excellent backup option to have available! A family sized inflatable boat is easy to store and actually very affordable considering how valuable it would be in a post SHTF scenario.

The boat in the photos is an [Intex Excursion 5 Boat Set](#)

. It is a large family sized boat and it currently costs [\\$127.47 on Amazon](#)

. For that price, if you can afford it, I'd say it is an excellent item to purchase. Imagine how useful/vital it could be...

Get it from Amazon: [Intex Excursion 5 Boat Set](#)

(highly recommended!)
