If you are a prepper, homesteader or just someone who likes cooking outdoors, you have to get a Dutch oven...

Dutch ovens are so versatile, you can cook almost anything in a Dutch oven that you can cook in a traditional oven. Everything from frying eggs to baking bread!

Dutch ovens are one of those things I always think look really, really expensive. This doesn't have to be the case though, the Lodge Pro Logic Cast Iron Dutch Oven is just $55 on Amazon and it will likely outlive you, no matter how much abuse you show it.

If you want to know more about Dutch ovens, the American Preppers Network has a great article about Dutch ovens which includes some history, some recommended accessories and some great recipes.
