I love home baked bread! I eat way too much of it, often having bread for breakfast and lunch.

You cannot beat home baked bread, but unless you have a bread-maker, it's a lot of effort to bake a loaf or two...

ACTUALLY that is not entirely true as you can make delicious and quick/easy home baked bread without a bread-maker. Check out the recipe and tutorial below from Old World Garden Farm. It shows you how to make a great tasting artisan bread with only five minutes effort. Simply throw in all the ingredients, mix them up, leave to proof for around an hour and then bake for around thirty five minutes. Don't take my word for it, check out the recipe below.
