How to Bug-In: What You Need to Know to Survive a Grid-Down Disaster

Categories : General Prepping, Self-Sufficiency, Urban Survival

What is bugging in? Bugging in is basically hunkering down in your home until either the proverbial or literal storm passes.

Why? Some cases are self-explanatory, It's your safe haven, you control who comes in, who you see, what food you have and its easier to stay warm and dry. Bugging in obviously has negatives too but we are all aware that sometimes bugging out just isn't an option.
