

## How To Build A 12x20 Foot Cabin For \$2000

Categories : [DIY](#), [General](#), [General Prepping](#), [Homesteading](#)

Want to build a low cost, quality cabin that would be great accommodation for guests? Got a bit of land for your secret bug-out location which needs an affordable cabin? Answer yes to either of these questions, then you've come to the right place!

Below is an excellent step-by-step tutorial showing how to build a 12x20 foot wood cabin for \$2200. It is a full build tutorial with details, measurements and materials. The cabin has a door and window at the front and double windows at the rear. The cabin is also wired for electricity with lighting and power points.
