

# How To Build A Barrel Stove

Categories : [DIY](#), [Homesteading](#)

Check out the awesome barrel stove in the video above. These barrel stoves are really easy to build, as you can pick up DIY kits with doors/hinges and cutting templates and full instructions, for around \$50, and as you can see, barrel stove can look pretty good in the home. A barrel stove would be perfect for a cabin! As said in the video, they can burn all night long- just look at the size of log you can fit in one...
