How To Build A Low Cost Rabbit Hutch From Pallets

This great little DIY rabbit hutch would be excellent for keeping rabbits as pets and breeding rabbits to eat. There are two types of people reading this post - one is going yum, yum and that other is mortified about the idea of eating pet rabbits! Your motivation for keeping rabbits doesn't matter, as long as they are cared for and kept in decent sized hutch. Actually if you were into breeding rabbits, you could build several of these cheap pallet hutches.

If you want to build your own DIY rabbit hutch, check out the link below for the build tutorial. Although any competent DIYer could probably build a hutch like this from the photo above anyway.
