How To Build A Tin-Can Rocket Stove

Categories: Cooking, DIY, General Prepping

We have featured loads and loads of DIY rocket stove tutorials, some small enough for hiking etc and others large enough to heat your home...

I have to say though that the tutorial below from 'Prepared Housewives' just might be the best rocket stove tutorial we have shared. Their step-by-step build tutorial is awesome, with excellent photos to help with each step. There is obviously a huge amount of work that has gone into producing this tutorial, so if you are interested in making a DIY tin-can rocket stove, I highly recommend checking out the tutorial below.
