How to Deal with Human Waste in Survival Situations

Categories: Health/Fitness, Urban Survival, Wilderness Survival

Ok, prepping can be pretty cool, right? All the researching and buying knives, tools and time on the shooting range. Today is not cool, today we are talking about what to do with your poo when the water is off or you are out in the wild. Don't skip this article and go back to searching for tactical flashlights on Amazon. Sanitation is vital to maintain health and avoid disease.

Not all prepping is cool, but you need to know what to do when the SHTF (no pun intended).
