How To Escape a Car Sinking in Deep Water

Categories: Uncategorized

It can happen in an instant, one minute you are driving along and the next your car is in the water, everyone is panicking and the car is sinking fast... What do you do?

Check out this video, so you know what to do, should it happen to you.

The safety expert in the video recommends everyone gets a LifeHammer. A LifeHammer is a small cheap tool that you fit in the car via a mounting bracket. In an emergency the LifeHammer can be used to cut seatbelts and break windows to enable escape from the vehicle.

Get one here: LifeHammer The Original Emergency Hammer ($14.95)
