How To Fix-Troubleshoot Your Pressure Canner Problems

Categories : Cooking, General Prepping, Homesteading, Self-Sufficiency

There is nothing more frustrating than when you have worked hard to get a batch of food prepared to can and then your canner doesn't work right. This is a great way to preserve food AND if the power goes out or SHTF.

I found a great article that goes through a few problems you may run into and how to fix them. I would recommend printing this information out.
