

How To Make A DIY Door Snake (Draft Stopper)

Categories : [DIY](#), [General](#)

We have done quite a few posts recently about helping you keep warm and save a bit on heating costs this winter, see:

- [DIY Bubble Wrap Window Insulation](#)
- [Cheap DIY Energy-Saving Thermal Curtains](#)

These DIY posts have been really popular, so here's another one to help you keep a little warmer... Below is an excellent tutorial showing how to make your own door snakes/draft stoppers. These door snakes are an excellent way to reduce the draft and cold which can come in through the gap at the bottom of your doors. These draft stoppers are cheap and easy to make, so now's a great time to get making and sort out those drafty doors.
