How To Make A Wooden (That's Right, Made Of Wood!) Rocket Stove

Categories : Cooking, Homesteading

If you liked the brick rocket stove yesterday, you're going to love this wood rocket stove!

Watch the video, this is really cool. The sound on the video isn't the best, but bear with it, as this is a super, super idea and I have never seen it before.

Personally I'm thinking this would work better if you drilled larger holes to begin with, but it works well enough here.
