How To Make An Emergency Candle From Butter

Categories : General Prepping

In the past I have posted about how to make DIY candles from things you have at home: How to Make an Everlasting Candle from Crisco (it doesn't smell!) and Make a Candle with Olive Oil.

I had never really considered making a candle out of butter, but I guess it makes sense as butter is mostly fat the same as Crisco and olive oil...

The great thing about this candle is you only need two things to make it - some butter and some toilet paper (to make the wick!). Anyway, head over to the Instructables and check out the video and tutorial.

Make a Butter Candle - Emergency Candle McGyver Style!
