How To Make And Use A Bow Drill

Categories: Creating Fire, General Prepping, Self-Sufficiency, Wilderness Survival

Making fire is always one of the top priorities. Rubbing sticks together and expecting fire is just wishful thinking. Making a bow drill will dramatically increase your chance of starting a fire with sticks.

See how to make your own bow drill and how to use it properly by clicking the link below. This is great knowledge we all should at least try out once in our life.
