How to Make Moonshine - 101

Categories: Food & Water, Homesteading

I posted last week on how to make apple pie moonshine. It was a very popular post, but a few people emailed in saying the post assumed folks already knew how to distill on a basic level...

This video is from Clawhammer Supply (the same guys who did the apple pie moonshine tutorial), it is eight minutes long, but it does give you a full run-through of the process of distilling and making honey moonshine. If you are unfamiliar with the process, it is a great introduction.
