I have said it before and I'll say it again - stop buying ready made tortillas from the store that are processed and full of unnecessary ingredients that are probably bad for your health! Homemade tortillas are so incredibly quick and easy to make, so please do give them a try if you haven't done so in the past. Once you make them yourself, you'll never buy them again!

This recipe is for wheat flour tortillas. You can use either plain flour or whole wheat, whichever you prefer. They are not to be confused with corn tortillas though as these are two different things altogether. I highly recommend getting over to 'Jazibe’s Recipes' on the link below and giving these a try. Homemade tortillas are great at home, but they are also really useful for camping and emergency preparedness too.

How To Make Tortillas De Harina (Flour Tortillas)
