How To Mount A TV On The Wall And Hide All The Cables

Categories : DIY, General

If you are anything like us, there is a whole tangled mess of cables hidden behind your TV cabinet... So the question is - if you want to mount your nice flat screen TV on the wall, how do you hide all those cables?

Well a while back we mounted a TV on the wall and I used a stick-on cable channel that worked pretty well, but you still had the cable channel running on the wall from the bottom of the TV to the powerpoint. The DIY tutorial on the link below from 'House Of The Hepworths' shows how to completely hide all the cables running from the TV to the powerpoint. It's an excellent step-by-step DIY tutorial, so have a look if you're thinking of mounting a TV on the wall.
