How To Tie A Taut Line Hitch Knot

Categories : General Prepping, Homesteading, Wilderness Survival

The taut line hitch knot is one of those knots that everyone should know how to tie... It is an especially important knot for camping as it is the knot used to attach guy-lines to pegs. It's also used to attach tarps and hang hammocks.

It's an important knot as it adjusts up and down, tighter and looser; it is useful for countless other purposes apart from camping. Do yourself a favour, watch the video and learn how to tie this simple, but important knot.
