How To Transport Fire

Categories: Creating Fire, General Prepping, Self-Sufficiency, Wilderness Survival

Fire along side shelter, water and food are important elements to wilderness survival. After getting
a fire going the first time, it is important to never allow it to go out in a survival situation.

There are a few ways to transport fire to your next destination but I really like this idea and will last for hrs and all of the things to make it are all around you. Click the link below to see how to make this "Long Match" and never be without fire!
