Ignite An Egg Carton With Charcoal To Light Your Barbecue Or Campfire

Categories : Cooking, Homesteading

Time to start saving those egg cartons... As with a lot of the things we share on Knowledge Weighs Nothing, it is the simplest things which are the best.

You only have to look at the photo and you are thinking OH YEAH, that'll work a treat. Simply close the egg carton with the charcoal inside and then light the carton with a match.

Check this out on 'Sew Many Things' for more photos and instructions.
