Making An Every Day Carry (EDC) Survival Kit

Categories : General Prepping

Ok, so you may already have a full-sized bug-out-bag packed and ready at home. The problem is you might not be at home when the SHTF and you can't carry your bug-out-bag around everywhere you go. So what is the answer?

How about a small EDC (every day carry) pocket pouch sized bag, containing just the bare essentials that will be most useful to you in a survival situation. Personally I think this is a great idea, you'll be surprised what you can fit in a pocket pouch bag and how useful it can be. Yes it's not your beloved bug-out-bag, but it the little pocket pouch has one HUGE benefit of the bug-out-bag, you'll always have it with you!

BTW - the awesome little pocket pouch is the Maxpedition EDC Pocket Organizer!

Below is a really great article on EDC survival kit from Prepping To Survive. It's a great read and it includes the list of everything in the bag above.
