I love, love, love chocolate brownies! I don't particularly have a sweet tooth, but they are one of my favourite treats. Chocolate brownies and great coffee, it doesn't get much better than that.

Home baked brownies taste amazing, they are also so simple to make, it's almost a crime to use a ready-mixed box, containing all the extra preservatives and additives. Do yourself a favour, stop making brownies from a box, instead, head over to Common Sense Homesteading and check out their great brownie recipe, complete with instructions on how to make, and get baking.

Never Bake Brownies From A Box Again!
