Never Lose Your Keys Again (Thanks To Lego)

Categories: Uncategorized
If you have kids, you will have some Lego laying around somewhere...

Stick a Lego board on the wall by the front door (or somewhere secret!), attach a Lego brick to your keys and you'll never lose your keys again.

If you don't have the Lego bricks with the holes through the middle, you could always drill a hole in a few bricks for your keys (just don't tell the kids).
