Six Primitive Traps For Catching Food In The Woods

Categories: General Prepping, Homesteading, Hunting & Fishing, Self-Sufficiency, Wilderness Survival

Traps and snares work well, and have worked for thousands of years. That being said, let's be honest! This is hard work and you have to set up lots to make it even remotely a possibility you will catch anything, but without a firearm this is pretty much your only option.

If anything from my posts please learn how to set snares and traps, you never know when you will need this knowledge. Learn all 6 below
