The Global Food Crisis & Bernanke's Recipe For Disaster (Take heed folks)

Categories: General Prepping

This video was created by PeakResources.org, below is their text that to accompany the video.

Our goal is to help as many people as possible become aware of the disaster we are rapidly approaching with the end of cheap resources. In our opinion, the wealth of most Americans could get wiped out during the next decade due to commodity inflation. Focusing on your real purchasing power, altering your lifestyle, and investing in the future is an opportunity that you just can't afford to miss.

Watch the video and then you decide!
