Urban survival and bugging in are two important topics that are quite worthy of consideration. If we are honest and really sit down and think about things, over half of us will end up bugging in. Even if you are planning to bug out, it may just not be possible.

To read this great article on urban preparedness tips, click the link below. Even if you only get one thing from this read, you are more prepared than you were 5 minutes ago.

Urban Preparedness Tips We All Should Consider
