Use A Scanner For Security & Emergency Preparedness

Categories : General, General Prepping

Purchasing and learning how to use a scanner is an excellent idea for anyone concerned with their security or emergency preparedness. You can monitor the police, fire, ambulance, weather etc for early signs of danger. A scanner really could give you a huge advantage if the SHTF, as you could receive prior warning of impending danger, long before everyone else..

A quick search on Amazon found this well reviewed scanner for $90. I think at that price a scanner is a very worthwhile investment, BUT only if you take the time to learn how to use it. For more information on using a scanner for emergency preparedness, check out the post below, which also includes to important frequencies to monitor.
